About this career event.

[CCP](#) has worked with thousands of employers since 2013 and in a position to help you in one of two ways:

1. Recruitment.

If your skills and interests overlap with a current client of ours, we are happy to handle a great deal for you regarding your application.

- Your first Interview
- Your candidate portfolio
- Advice on your resume, application, and other materials
- Your submission to the employer

2. **Referral.** If your skills and interests are not met with a current client of ours, we are happy to provide you Names, Contacts, Email Addresses, and an introduction to any of over 1,000 major employers.

During our discussion with you, tomorrow.

- We will review your resume and registration
- We will discuss your current interests
- We will direct you toward one of the two modes above, and help you with either/both

Best regards / we look forward to talking to you!
